EDUCATION

Bachelor of Science in Computer Science and Engineering
Independent University Bangladesh
01/2018 - 12/2021   *Dhaka*

Higher Secondary Certificate (HSC)
Rajshahi New Government Degree College
2015 - 2016   *Rajshahi*

Secondary School Certificate (SSC)
Naogaon K.D Government High School
2014   *Naogaon*

WORK EXPERIENCE

Software Developer
Kernel Solution
04/2023 - Present
Software Development

Achievements/Tasks
○ Working on a product with ReactJs, JavaScript, NodeJs and MongoDB technologies
○ The key responsibilities of mine in this project are frontend features development and testing.
○ Also, I need to gather requirements and analysis them.

Jr. Software Engineer
Solution Art Ltd.
09/2022 - 04/2023   *Dhaka*
ICT Service Provider

Achievements/Tasks
○ Working on an ERP Solution with ReactJs, Entity Framework, SQL Server 2016 technologies
○ The key responsibilities of mine in this project, gather requirements and analysis, features development and testing.
○ Making a proper documentation of this project with providing user manual.

Intern as a Software Developer
Technocare Orbit Ltd.
07/2021 - 12/2021   *Dhaka*
ICT Service Provider

Achievements/Tasks
○ Contributed on a project named Hospital Management System (HMS) with ReactJS, WEB API, C#, SQL SERVER 2018 technologies.
○ I did requirements Analysis & Design, Features development, Testing & Bug fixing.

SKILLS

Object Oriented Programming Language   C++   C#

JavaScript   Entity Framework   ReactJs

Microsoft SQL Server   Version Control (GIT)

PROJECTS

Student Performance Monitoring System 2.0
○ This is a group project. We analyze the Business Requirement Document (BRD), System Requirement Specification (SRS) and Software Design Documents (SDD) and finally we created a demo project with Html, CSS and JAVASCRIPT

E-Medicine Sheba
○ Developed by ReactJs, Javascript, ASP.Net, REST API, Microsoft SQL Server

Student Management System
○ This project develops with ReactJS, C#, SQL SERVER 2018 and I did Design, Features development, Testing & Bug fixing

Gesture Controlled Robotic Arm
○ This is a robot which can be controlled by hand gestures, and it was a group project. We created this project with Arduino Uno, Flex sensor, Servo motor, Adapter.

Scientific Calculator
○ Developing with C++

Text Manipulating App
○ Developed with React hooks.

EXTRA-CURRICULAR ACTIVITIES

IUB IEEE Student Branch
Cultural Co-Ordinator

IUB EEE-Day 2019
Organizing Committee

URI Online Judge
Programming Problem Solver

Intra IUB Programming Contest
Programming contester

LANGUAGES

Bangla   **English**
Native or Bilingual Proficiency   *Full Professional Proficiency*
